Commercial Photography & Videography Services

Using Most advanced
Technology in global
websites like amazon !

Basic **White**

The Basic White is more useful for website. The Product is in focus and white background. This concept is great for online selling products, menus as well as social media advertising.

**100's of
products
could be ready
in**

A lot of products sizes could be
implementing in commercial photography
for websites and social media platforms.

1 Day

360° Rotation

Product can be rotated 360° to cover all faces. This concept is well known and required to show your customers in the website.

**360°
Rotation**

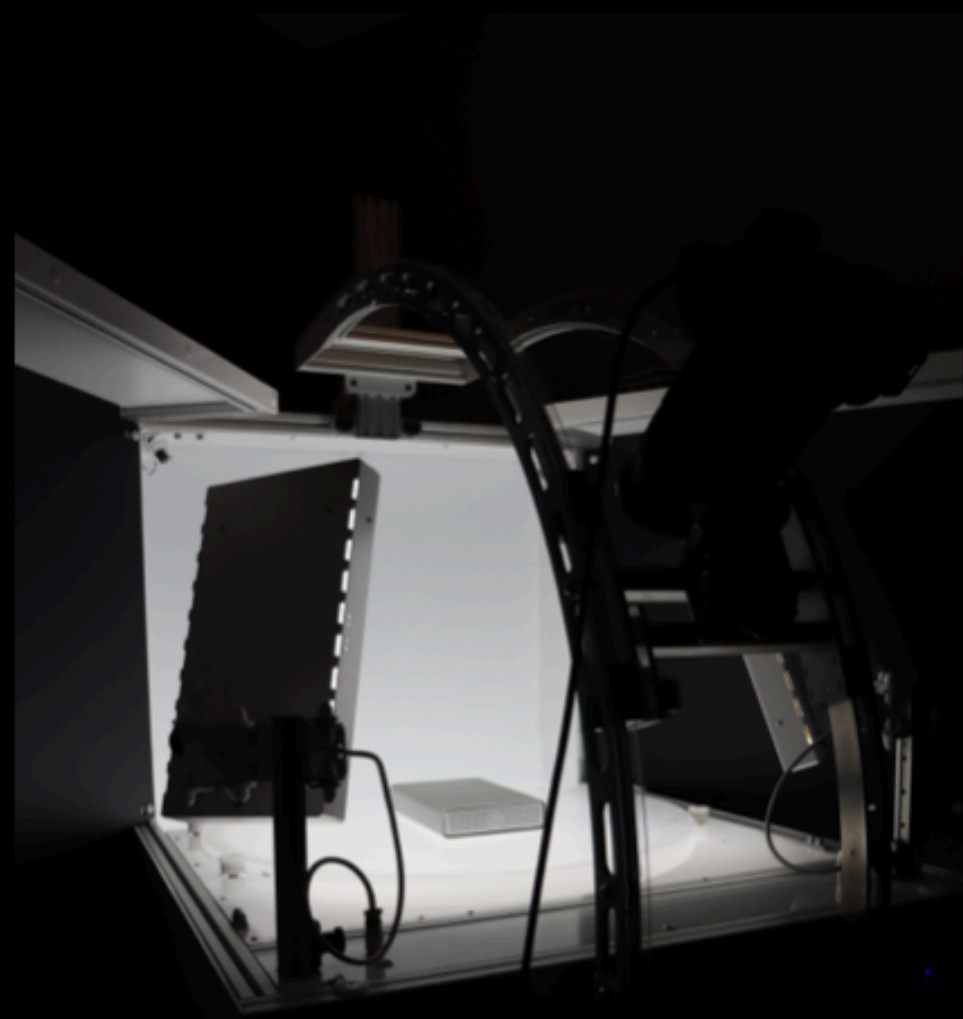

Basic **Color**

The Basic **Color is more useful for specific branding guidelines that required other colors than white. The Product is in focus and background could be any color.**

png Products Images

Products can be
photographed and
background could be
removed with the

most advanced
editing software.

Customised Background

After Taking the product shot on PNG mode, the background also could be customised with other images. This concept is

cool for creating ad, brochure, catalogs and even social media advertising
